### **Maths:**

Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them.  
Recognise angles as a property of shape or a description of a turn. Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle.  
Identify horizontal and vertical lines and pairs of perpendicular and parallel lines.  
Interpret and present data using bar charts, pictograms and tables.  
Solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.  
Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10

### **Science:**

**Nutrition and our body** – The boys will be learning about healthy eating, the different food groups and how they help our body. They will also learn about the skeleton and muscles.

### **Light and Shadow**

They will learn to identify different sources of light and how to make shadows and to be able to explain what happens to make a shadow. They will also learn whether all objects block light. The boys will also learn what happens to shadows as the object changes position and to describe using scientific terms.
