### Art and Design and Technology Statement of Intent

At Pardes House Primary School, we value Art, Design and Technology as an important part of the children's entitlement to a broad and balanced curriculum. Art, Design and Technology provide the children with the opportunities to develop and extend skills and an opportunity to express their individual interests, thought and ideas.

Art, craft and design embody some of the highest forms of human creativity. A high-quality art and design education should engage, inspire and challenge pupils, equipping them with the knowledge and skills to experiment, invent and create their own works of art, craft and design. Within Art, Design and Technology we ensure that all children access the learning of skills appropriate to their age. We endeavour to ensure that skills are progressive and developmental. As pupils progress, they should be able to think critically and develop a more rigorous understanding of art and design. They should also know how art and design both reflect and shape our history, and contribute to the culture, creativity and wealth of our nation.

Our Art and Design and Technology curriculum will develop key skills, inquisivity and allow pupils access to a wide range of opportunities, while learning about different artists and where possible, integrating this with other subjects.

At Pardes House, it is our responsibility to facilitate the pupils a safe and welcoming environment to allow them to explore develop their art skills. That also includes pupils with SEND, Pupil Premium and those are Greater Depth.

Mrs B Cohen  
Art Leader
